

20 September 1968

MORNING MEETING ACTION ITEMS

TO: DD/S&T

The Director inquired about what information we have about the recent Pugwash Conference in Nice and upon being met with blank stares asked the Deputies to look into the matter and specifically asked the DD/S&T to consult with Spurgeon Keeny, who is looking into the Conference for the White House.

The Director asked the DD/S&T to ensure that the follow-through paper on what is required to convert the SA-5 into an ABM system is finished by next week.
